TERMS AND CONDITIONS

Rebate Offer: The rebate is for qualifying natural gas infrared heating equipment purchased and installed between January 1, 2012 and December 31, 2012. Rebate levels are subject to change or cancellation without prior notice. **This application form must be received no later than December 31, 2012.** Completed and signed applications or a letter of intent must be submitted within 30 days of the equipment installation to be eligible for rebates.

Maximum Payment: The Utilities reserve the right to cap incentive amounts. Contact your participating utility representative or the appropriate utility company's Program Administrator for details.

Eligibility: Rebates are available to industrial, commercial, and institutional customers on firm gas rates. Equipment must be installed in the service territory of the participating utility. Eligible systems are low-intensity and high-intensity natural gas infrared heaters.

Proof of Purchase: An invoice itemizing the purchased equipment must accompany each rebate application form. **The invoice copy must indicate the equipment type, size, make and model, serial number of the system and date of purchase.**

Application Form: This application must be filled out completely, truthfully and accurately. The customer or their authorized representative must sign, date, and submit the application along with the invoice, and manufacturer's equipment performance sheet stating the nominal capacity in BTU/hour.

Payment: Please allow a minimum of 30 days for rebate payment processing after receipt by the program administrator(s) of fully completed application materials and receipts. Payment processing may take longer if information is missing on the application.

Approval and Verification: Your participating gas utility reserves the right to verify sales transactions and to have reasonable access to your facility to inspect the equipment installed prior to or after issuing rebates.

Endorsement: Your participating gas utility does not endorse any particular manufacturer, product or system design in promoting this Initiative.

Tax Liability: Your participating gas utility is not responsible for any tax liability that may be imposed on the customer or contractor as a result of the payment of rebates. All customers must include their Federal Tax Identification number or Social Security number as part of this application to receive a rebate.

Warranties: YOUR PARTICIPATING GAS UTILITY DOES NOT WARRANT THE PERFORMANCE OF INSTALLED EQUIPMENT, EXPRESSLY OR IMPLICITLY. The participating utility makes no warranties or representation of any kind, whether statutory, expressed or implied, including, without limitations, warranties of merchantability, or fitness for particular purpose regarding equipment or services provided by a manufacturer or vendor. Contact your contractor regarding equipment performance and warranties.

Limitations of Liability: The liability of your participating gas utility is limited to paying the rebate specified. **The participating gas utilities do not guarantee that energy efficiency measures purchased and installed or services provided through this program will result in energy and costs savings. No warranties on product or service installations are provided by the participating gas utilities, nor do they guarantee or endorse the energy efficiency services provided by any specific contractor participating in the program.** The participating utility is not liable for any damages or for any damages in tort connected with or resulting from participation in this rebate offer.

Assignment: The customer may assign the rebate payment to a qualified contractor by making the appropriate election on this form.

Customer's Certification: Customer certifies that he/she has purchased and installed the equipment listed above at the Service Address. Customer agrees that all information in this rebate application is true and conforms to all equipment eligibility requirements and these Terms and Conditions. Customer has verified that the units listed above have been installed correctly. There are no unusual noises or vibrations and all controls have been calibrated. Customer or customer's representative has been instructed on how to operate and maintain this equipment and has received all the necessary operation and maintenance manuals.

Contractor Certification: Contractor certifies that he/she installed the equipment listed above at the Service Address. Contractor has installed the listed equipment in accordance with all federal, state, and local guidelines. Contractor certifies that all Contractor Information listed is true and conforms to all equipment eligibility requirements and these Terms and Conditions. Contractor has verified that the units listed above have been installed correctly and that there are no unusual noises or vibrations and that all controls have been properly calibrated. Contractor has instructed Customer or Customer's representative on how to operate and maintain the equipment.
