AVAILABLE for the entire electrical requirements of single-family residences, residential out-buildings, individual apartments, and general service use in apartment buildings, where residential use constitutes over 50 percent of the metered energy, and also available to farm customers.

In compliance with PA 99-29 military veterans' posts and organizations (i.e. VFW, American Legion, Disabled American Veterans, etc) that are exempt from federal taxation under Section 501(c) of the Internal Revenue Code may receive service under this rate.

In compliance with PA 98-149 amending Subsection 16-19ff (a) of the Connecticut General Statutes, residential use in recreational campgrounds may receive service under this rate. The campground owner (i.e. the "Submetering Customer") must comply with The Regulations of Connecticut State Agencies listed below.

In compliance with Public Act 02-17, amending Subsection 16-19ff (a) of the Connecticut General Statutes, use at a marina that qualifies for residential type use may receive service under this rate. A marina must have DPUC approved policies and procedures prior to billing any submetered customer. The marina owner (i.e. the "Submetering Customer") must comply with The Regulations of Connecticut State Agencies listed below. A marina must have DPUC approved policies and procedures prior to billing any submetered customer.

To ensure the quality of service and equitable treatment of the metered campsites and boat slips (i.e. "Submetered Party"), campgrounds and marinas are required to follow Conn. Agencies Regs. Section 16-11-236 Calculating Submetered Party's Cost, Section 16-11-237 Installation and Maintenance of Submeters, and Section 16-11-238 Meter Test and Record Retention. Section 16-11-100 Definitions defines a Submetering Customer, a Submetered Party, and "Average Cost" as used in Section 16-11-236.

This rate is available for customers who have a solar heating system which is used as a source of space heating and for which electricity provides backup.

This rate is not available for service to apartments except where each apartment is metered and billed individually. An apartment is defined as a room or group of rooms with separate cooking facilities.
